

Application : Add directly to the steering system after the change of power steering oil. Before application of the product, drain the corresponding amount of oil. 100 ml are sufficient for 2 L capacity. For larger capacities add 50 ml per liter of steering oil.

Description : TRIBO POWER STEERING FLUID for protection of power steering gear boxes.

Advantages : Protects all parts of the gear box from wear, tear and rust. Protects from oxidation and foam formation. Has a noise-reducing effect and guarantees a save and smooth operation of the power steering system.
